Curriculum vitae

Current position

Teacher of physics and chemistry, lycée Jean Bart, 59140 Dunkerque – France.

Training

1996: Diploma of high studies in Materials-Sciences, Université de Lille I.

1991: Agrégation of physics and chemistry.

1987: Licence of Computer Science, Université de Nancy I.

1979: CAPES (certificate of teacher) for physics and chemistry.

1976: Master of biochemistry, Université Pierre et Marie Curie - Paris VI.

1974: Student in École Normale Supérieure de la rue d'Ulm - "series B": physics and chemistry.

1973: Graduation in literacy and arts.

1972: Graduation in sciences.

Teaching experience:

I mostly taught physics and chemistry, and a few computer science to younger, teenager and adult students, mainly in schools and universities, and also for professional trainings.

publications related to free software:

Secretary in the association OFSET: OFSET is a N.G.O. promoting free software usage for Education and Training at an international level.

publication of Freeduc-CD series: Freeduc-CD is a live CDROM featuring some forty educational high-level programs with a free license, together with a well fitted documentation booklet. There have been more than 100,000 downloads of the four last releases.

authoring/maintaining some packages for Debian-Linux: **Wims**, an interactive teaching system of high level; **Chemeq**, a grammatical parser for chemical equations with typesetting support; **Units-filter**, a grammatical parser for physical units; **Wims-assignments**, some glue stuff to use Wims worksheets directly from Moodle (a powerful Learning Management System).

language skills:

mother tongue: French.

fluent: English, Spanish.

able to write and phone call: German, Polish.

Miscellanea:

Leisure: swimming, diving.

Coaching student groups for “Olympiades de la Physique”.
